

Lab Submission Report (for Dr. Ervin Frenzel)

This lab submission report, with a signed statement of originality, is required to be submitted with each lab that I turn in.

Lab name and due date: _____ Date _____

Class: Rubric: CSCE Course _____ Section _____

Statement of originality

I, _____, affirm that this work is my own original work. I further attest that the work I am submitting up to and including the attached screen shot and required answers to questions necessary to complete the lab are my own. This attestation allows for peer guidance (specifically tutoring), but the actual work was completed by my hand, without the assistance of Artificial Intelligence (AI), machine learning, or any other algorithm not assigned by the lab itself. I understand if I choose not to complete the work, I may not be able to find or retain employment due to a lack of sufficient knowledge. I further understand if I seek to take a certification exam associated with this topic, it will require additional guidance and training; as this training is not an accredited ANSI/ISO certified course ware, unless I am attending a vendor ANSI/ISO course ware specific to the certification.
